PROFILE

Dynamic Senior Software Engineer with nearly 5 years of professional experience building high-availability backend architectures, full-stack web applications, microservices, and high-throughput REST APIs. Proficient in Node.js, Express.js, Next.js, React 19, PHP (Laravel, CodeIgniter), TypeScript, MySQL, MongoDB, and Redis. Adept at engineering real-time communication systems, enterprise authentication (OAuth 2.0, Microsoft SSO, JWT), payment gateways (Stripe, PayPal, Razorpay), logistics integrations (Extensiv), and workflow automation. Strong track record collaborating with cross-functional onshore teams and clients to architect, build, and deliver high-availability software.

EDUCATION

THE UNIVERSITY OF BURDWAN

West Bengal, India

Bachelor of Computer Applications (BCA)

2015 – 2018

- First Class with Distinction (Grade A) • Relevant Coursework: Data Structures, Web Systems, Database Management Systems, Software Engineering

SKILLS

Technical: Node.js, Express.js, Next.js (App Router), React 19, TypeScript, JavaScript (ES6+), PHP [Laravel, CodeIgniter, WordPress, Shopify/Liquid], REST APIs, WebSockets (Socket.IO), WebRTC, MySQL, MongoDB, Redis, GraphQL, Microservices, HTML5, CSS3/Tailwind CSS, Performance Optimization

Tools & DevOps: AWS (S3, Cloud Services), Azure Cloud Services, Docker, RabbitMQ, n8n Workflow Automation, Git, GitHub, Bitbucket, Postman (API Testing), Stripe, PayPal, Razorpay, Square, Extensiv 3PL, GoHighLevel (GHL), Salesforce CRM

CERTIFICATIONS

- Node.js, Express, MongoDB & More: The Complete Bootcamp – Udemy • How To Become a Shopify Expert – Udemy
- AWS S3 Buckets & Cloud Architecture Specialization • Postman Certified: API Automation, Testing & Debugging

EXPERIENCE

Codeclouds IT Solutions Pvt. Ltd.

Kolkata, India

Senior Software Engineer: Web

June 2023 – Present

- Architect and engineer enterprise web applications and microservices utilizing Node.js, Express.js, Next.js, PHP, Laravel, TypeScript, MySQL, MongoDB, and Redis.
- Engineered modular containerized services and backend API workflows, reducing defect resolution time by 35%.
- Optimized application performance by refactoring database queries, introducing Redis caching, and streamlining API endpoints, increasing system throughput by 40%.
- Engineered enterprise Microsoft-based single sign-on (SSO) authentication and OAuth 2.0 social login integrations for Google, LinkedIn, and Facebook.
- Integrated multi-gateway payment processing including Stripe, PayPal, Razorpay, and Square with split payments and automated vendor payouts.
- Integrated logistics and 3PL tracking platforms (Extensiv) for automated real-time shipment monitoring, reporting, and operational visibility.
- Automated business processes via n8n workflows integrating GoHighLevel, Salesforce CRM, and Pingtree for lead routing and pipeline management.

Red Apple Technology Pvt. Ltd.

Kolkata, India

Software Developer

March 2022 – May 2023

- Contributed to full-lifecycle development of client web applications, starting from architectural design to coding, testing, and production deployment.
- Engineered database-driven web features and third-party REST API integrations in PHP and JavaScript, resolving complex technical bottlenecks.
- Collaborated with onshore stakeholders to gather requirements, document technical specifications, and conduct rigorous user acceptance testing (UAT).

Spring Infoserv Technologies

Kolkata, India

Web Application Developer

February 2021 – February 2022

- Developed database-driven web applications and backend API logic using PHP and MySQL.
- Maintained legacy applications, refactored database queries, and implemented responsive frontend interfaces.

SELECTED PROJECTS

- **Have-it Super-App:** Unified real-time messenger and social ecosystem with Next.js 15, React 19, Socket.IO, WebRTC audio/video calls, MongoDB Atlas, Redis, and RabbitMQ microservices.
- **Microsoft Enterprise Authentication System:** Secure browser-based authentication flow with OAuth 2.0 and JWT token validation.
- **Extensiv 3PL & Logistics Hub:** High-reliability logistics tracking integration providing real-time shipment synchronization and reporting.
